1 Summary of significant accounting policies

(a) General information and basis of preparation

PDQ Data Systems Limited is a private company limited by shares incorporated in England and Wales. The address of the registered office is given in the company information on Page 1 of these financial statements. The nature of the company's operations and principal activities is the provision of computer hardware and software products.

The financial statements have been prepared in accordance with applicable accounting standards including Financial Reporting Standard 102 Applicable in the UK and Republic of Ireland (FRS 102) and the Companies Act 2006. The financial statements have been prepared on a going concern basis under the historical cost convention. The financial statements are prepared in sterling which is the functional currency of the company.

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise stated.

(b) Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost, less estimated residual value, of each asset on a systematic basis over its expected useful life as follows:

Plant and equipment

25% on reducing balance

(c) Debtors and creditors receivable/ payable within one year

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the profit and loss account in other administration expenses

(d) Tax

Current tax represents the amount of tax payable or receivable in respect of the taxable profit for the current or past reporting periods. It is measured at the amount expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

(e) Turnover and other income

Turnover is measured at the fair value of the consideration received or receivable net of VAT and trade discounts. The policy adopted for the recognition of turnover is as follows:

Turnover represents the amount received from providing a computer hardware and software service to third parties during the year. The amount does not include VAT

(f) Foreign currency

Foreign currency transactions are initially recognised by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Monetary assets and liabilities denominated in a foreign currency at the balance sheet date are translated using the closing rate
