OSO Hotwater (U.K.) Limited

Notes to the financial statements Year ended 31 December 2018

1. General information

The company is a private company limited by shares, incorporated in the United Kingdom and registered in England. The address of the registered office is given in the company information page of these financial statements.

Statement of compliance

The financial statements have been prepared in accordance with Section 1A of Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland* ('FRS 102') and the Companies Act 2006.

2. Accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

2.1 Basis of preparation of financial statements

The financial statements are prepared on a going concern basis and under the historical cost convention. They are presented in pounds sterling and rounded to the nearest £.

2.2 Foreign currency translation

The company's functional currency is the pound sterling.

Transactions in foreign currencies are translated into sterling using the spot exchange rates at the dates of the transactions. At each period end, foreign currency monetary assets and liabilities are translated using the closing rate. Foreign exchange gains and losses are recognised in the profit and loss account.

2.3 Revenue recognition

Turnover comprises revenue recognised in respect of goods and services supplied during the year, net of discounts and excluding Value Added Tax.

Revenue is recognised when significant risks and rewards of ownership of the goods have transferred to the buyer, the amount of turnover can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the company and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.4 Employee benefits

Short-term benefits

Short-term benefits, including holiday pay and other similar non-monetary benefits are recognised as an expense in the period in which the employee's entitlement to the benefit accrues.

Defined contribution pension plan

The company/group operates a defined contribution pension plan for its employees. Contributions are recognised as an expense when they fall due. Amounts due but not yet paid are included within creditors on the balance sheet.

The assets of the plan are held separately from the company/group in independently administered funds.

Notes to the financial statements Year ended 31 December 2018

2. Accounting policies (continued)

2.5 Taxation

The taxation expense for the year comprises current and deferred tax and is recognised in the profit and loss account except to the extent that it relates to items recognised in other comprehensive income, or directly in equity, in which case the tax expense is also recognised in other comprehensive income or directly in equity.

Current tax is the amount of corporation tax payable in respect of the taxable profit for the current or past reporting periods. It is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax represents the future tax consequences of transactions and events recognised in the financial statements of current and previous periods. It is recognised in respect of all timing differences, with certain exceptions. Timing differences arise from the inclusion of transactions and events in the financial statements in periods different from those in which they are assessed for tax.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of timing differences.

2.6 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost, less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price plus any further costs directly attributable to bringing the asset to its working condition for its intended use.

Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their estimated useful lives as follows:

Fixtures and fittings - 2 to 6 years straight-line

Asset residual values and useful lives are reviewed at the end of each reporting period, and adjusted if appropriate. The effect of any change is accounted for prospectively.

2.7 Leases

All of the company's leasing arrangements are operating leases. Rental payments under operating leases are charged to the profit and loss account on a straight-line basis over the lease term, even if payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straightline basis over the lease term.

2.8 Stocks

Stocks are stated at the lower of cost or estimated selling price less costs to complete and sell. Cost is determined using the first-in first-out (FIFO) method and includes the purchase price (including taxes and duties) and transport and handling costs directly attributable to bringing the stock to its present location.

Provision is made as necessary for damaged, obsolete or slow-moving items.

OSO Hotwater (U.K.) Limited

Notes to the financial statements Year ended 31 December 2018

2. Accounting policies (continued)

2.9 Financial instruments

The company only enters into financial instruments transactions that result in the recognition of basic debt financial assets and liabilities like trade and other accounts receivable and payable, cash and bank balances and loans to or from related parties, including fellow group companies. All such instruments are due within one year, and are measured, initially and subsequently at the transaction price.

At the end of each reporting period debt financial assets are assessed for impairment, and their carrying value reduced if necessary. Any impairment charge is recognised in the profit and loss account.

3. Employees

The average monthly number of employees, including directors, during the year was 16 (2017 - 16).
