#### Turnover

Turnover comprises the fair value of the consideration received or receivable, net of value added tax.

Turnover is recognised as follows:

Where the outcome of a contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the balance sheet date. This is normally measured by surveys of work performed to date. Variations in contract work, claims and incentive payments are included to the extent that it is probable that they will result in revenue and they are capable of being reliably measured.

Where the outcome of a contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.
