The financial statements are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing those financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable United Kingdom Accounting Standards have been followed, subject to any material departures being disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis, unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. (1) Basis of accounting

The financial statements are prepared on the going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom

The Company is included in the consolidated financial statements of British American Tobacco plc. Consequently, the Company has taken advantage of the exemption from preparing consolidated financial statements under the terms of section 400 of the Companies Act 2006

The principal accounting policies have been applied consistently throughout the year and a summary is set out below

(3) Foreign currencies

Transactions arising in currencies other than sterling are translated at the rate of exchange ruling on the date of the transaction. Monetary assets and liabilities expressed in currencies other than sterling are translated at rates of exchange ruling at the end of the financial year. (4) Accounting for income

Income is included in the profit and loss account when all contractual or other applicable conditions for recognition have been met. Provisions are made for bad and doubtful debts where there is an expectation that all or a portion of the amount due will not be recovered

(5) Taxation

Taxation provided is that chargeable on the profits of the year, together with deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more taxation in the future or a right to pay less taxation in the future have occurred at the balance sheet date

A net deferred taxation asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward taxation losses and from which the future reversal of underlying timing differences can be deducted

Deferred taxation is measured at the average taxation rates that are expected to apply in the periods in which the timing differences are expected to reverse based on taxation rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred taxation is measured on an undiscounted basis
