STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2013

Company activities and review of developments

The Company was regulated by the Financial Services Authority ("FSA") up to the 31 March 2013, thereafter by the Financial Conduct Authority ("FCA") and acts as an advisor on mergers and acquisitions and other corporate finance transactions, as well as from time to time as an arranger of certain types of investments and derivatives. The Company is a subsidiary of Willis Group Holdings plc ("the Group"). The Group is one of the world's leading professional service providers of risk management solutions, risk transfer expertise through insurance and reinsurance broking, and related specialised consultancy services.

There have been no significant changes in the Company's principal activities in 2013. The Directors are not aware, at the date of this report, of any likely major changes in the Company's activities in the next year.

Results

The loss on ordinary activities after taxation amounted to £451,000 (2012 loss of £1,634,000) as shown in the profit and loss account on page 9. The decrease in loss is mainly attributable to

- £144,000 increase in fee income,
- £95,000 decrease in salary and benefits expense,
- £506,000 decrease arising from the 2012 write off of retention awards,
- £366,000 decrease in retention awards amortisation,
- £279,000 decrease in incentive award expenditure, and
- £244,000 decrease in allocated costs,

partly offset by

- £402,000 reduction in the corporation tax credit, and
- £49,000 net increase in other expenses

Balance sheet

The balance sheet on page 10 of the financial statements shows the Company's financial position at the year end Net assets have decreased by £451,000 as a result of

- £401,000 decrease in amounts owed by Group undertakings in respect of UK corporation tax group relief,
- £45,000 net decrease in amounts due from Group companies, and
- £130,000 decrease in the amounts due from third parties,

partly offset by

- £59,000 reduction in deferred revenue and accrued expenses,
- £50,000 increase in cash, and
- £16,000 movement in other sundry debtor and creditor balances

The Group manages its operations on a divisional basis. For this reason, the Company's Directors believe that further key performance indicators for the Company are not necessary or appropriate for an understanding of the development, performance or position of the business. The performance of the Group, which includes the Company, is discussed in the Group's financial statements which do not form part of this report.

Principal risks and uncertainties

Competitive pressure is a continuing reality for the Company, which from time to time may result in it not winning advisory mandates from its clients. This may result in difficult to predict and volatile revenues for the Company. The Company manages this risk by actively soliciting advisory mandates, delivering value to clients in its advisory work, and creating appropriate contractual fee structures.

Furthermore the Directors' enquiries extend to the Company's relationship with the Group and external parties on a financial and non-financial level. Having assessed the responses to their enquiries, the Directors have no reason to believe that a material uncertainty exists that may cast significant doubt upon the ability of the Willis Group to continue as a going concern or its ability to repay loans due to the Company from time to time

As a consequence of the enquiries the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the accounts

Cash retention awards

In previous years, Willis Group Holdings plc (the 'Group') paid annual cash retention awards to its employees under its annual incentive programs. Employees were required to repay a proportionate amount of these awards if they voluntarily left the Group's employ (other than in the event of retirement or permanent disability) before a certain time period, typically up to three years. The Group paid cash payments to its employees in the year it granted these retention awards and recognised these payments ratably over the period they were subject to repayment, beginning in the quarter in which the award was made. The unamortised portion of cash retention awards was recorded within prepayments and accrued income. In December 2012, the Group decided to eliminate the repayment requirement from the past annual cash retention awards and, as a result, the Company wrote off the unamortised balance of past awards of £506,000 in 2012.

The following table sets out the amount of retention awards paid the years ended 31 December 2013 and 2012
