BDO Employment Services Limited
Directors' report
For the 52 weeks ended 01 July 2022

The directors present their report and the financial statements for the 52 weeks ended 01 July 2022.

Principal activities and business review

The company's principal activity was the supply of personnel and associated services. On 28 March 2013, as part of an agreement between Pannells LLP (formerly PKF (UK) LLP) and BDO LLP the company was sold to BDO LLP and all of the current employees transferred to BDO Services Limited. The company has obligations to former employees in respect of contributions, due in accordance with actuarial advice, to two defined benefit schemes for which it will continue to be reimbursed by the parent undertaking.

Results

The company has not traded during the financial period and accordingly no profit and loss account has been prepared. The directors do not recommend the payment of a dividend.

Directors

The directors of the company who were in office during the year and up to the date of signing the financial statements were:

A Butterworth
S C Collins
S W Knight
D I Lowson
J A Randall (resigned 2 July 2022)
S P Gallagher (appointed 2 July 2022)

Directors' responsibilities

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising Financial Reporting Standard 102 *The Financial Reporting Standard Applicable in the UK and Republic of Ireland* (FRS 102), and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards comprising FRS 102 have been followed, subject to any material departures disclosed and explained in the financial statements;
- notify its shareholders in writing about the use of disclosure exemptions, if any, of FRS 102 used in the preparation of financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In preparing this directors' report, advantage has been taken of the small companies' exemption.

On behalf of the Board

The notes on pages 3 to 6 form part of these financial statements.

BDO Employment Services Limited

Notes to the Financial Statements for the 52 weeks ended 01 July 2022

1. Accounting policies

The financial statements have been prepared in accordance with FRS 102, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland.

The company is dormant within the Companies Act definition of a dormant company and has taken advantage of the option available under Section 35:10 of FRS 102 to retain its accounting policies for reported assets, liabilities and equity at the date of transition to FRS 102 until there is any change to those balances or the company undertakes any new transactions.

Pension costs

A provision has not been made in these financial statements for the net pension liability as, under the terms of the service agreement, the liability is borne by the parent undertaking and is dealt with in the financial statements of that entity along with any contributions made.

5. Pensions

BDO ES Pension Schemes

The BDO ES Pension Scheme (formerly PKF Final Salary Pension Scheme) was closed to both new members and future accrual on 31 March 1997. The assets and liabilities of the Pannell Kerr Forster Pension Fund were transferred into the scheme effective from 31 January 2006.

The BDO ES (Manchester) Pension Fund (formerly PKF (Manchester) Pension Fund) closed to future accrual with effect from 31 August 2002. For reporting purposes, the assets and liabilities of this scheme have been combined with the BDO ES Pension Scheme on the basis that they are not material to report separately. At 01 July 2022 the scheme was showing a net defined benefit liability of £0.8m (2021 - £5.3m).

There are no outstanding or prepaid contributions to these arrangements as at 01 July 2022 (2021 - £nil).

The assets and liabilities of the BDO ES Pension Schemes have been valued for IAS 19 purposes by a qualified actuary from Broadstone Pensions & Investments Limited on 01 July 2022.

During the period, the Group paid contributions of £1.1m (2021 - £1.1m). In addition, the Group pays the costs of administering the Scheme. The most recent signed actuarial valuations, conducted under the new Scheme Funding Regulations (Pensions Act 2004), of the two BDO ES Schemes were carried out on 1 April 2020 by Broadstone and on 1 May 2019 (BDO ES (Manchester) Fund) by Aviva. The ongoing contribution levels were set at £1.1m and £0.1m per annum respectively.

Key actuarial assumptions

	01 July 2022 %	02 July 2021 %
Discount rate	3.45	1.80
Rate of inflation – RPI	3.50	3.50
Rate of inflation – CPI	2.90	2.90
Commutation – percentage of pension	20.00	20.00

The underlying mortality assumption is based upon the S3PA_M mortality base tables with future improvements in line with CMI2021 projection tables subject to a long-term rate of improvement of 1% pa.

	01 July 2022	02 July 2021
Life expectancies from age 65:		
Male currently aged 65	86.2	86.7
Female currently aged 65	88.6	89.1
Male currently aged 45	87.2	87.7
Female currently aged 45	89.8	90.2

In July 2010 the UK Government announced that the statutory minimum level of revaluation would in future be calculated using the Consumer Prices Index ("CPI"), rather than the Retail Prices Index ("RPI"). In the schemes, revaluation of deferred pensions is in line with the statutory minimum, and therefore an assumption has been made about future rates of CPI in order to value deferred pensions.
