The financial statements were approved by the Board of Directors and authorised for issue on 9 December 2020 and were signed on its behalf by:

D Kelso - Director

Notes to the Financial Statements
for the Year Ended 30 September 2020

1. STATUTORY INFORMATION

Kings Hill Golf Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The financial statements have been prepared in £ Sterling as this is considered by the director to be the company's functional currency.

Going concern

The financial statements have been prepared on a going concern basis even if the company made a loss of £9,984 during the year (2019: loss of £26,272) and at the balance sheet date the company had net current liabilities amounting to £79,297 (2019: current liabilities £154,860).

The majority shareholder has expressed his willingness to continue to support the company to enable it to trade for at least the next twelve months from the date of the approval of the financial statements and therefore the directors continue to use the going concern basis.

Turnover

Turnover comprises amounts derived from the provision of activities falling within the company's ordinary activities after deduction of value added tax.

The turnover and loss before taxation is attributable to the one principal activity of the company.

Subscription income from club members is recognised evenly over the period to which it relates. Any income received in advance is shown under deferred income.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Long leasehold	- 2% on cost
Plant and machinery	- 25% on cost
Fixtures and fittings	- 25% on cost

Tangible fixed assets are stated at cost less depreciation.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2. ACCOUNTING POLICIES - continued

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

Members' deposits reserve

Certain members' deposits are repayable under the terms of the company's golf club's rules. The deposits are unsecured and generally repayable with a premium equal to the increase in the Index of Retail Prices since the date of original receipt of the member's deposit. The directors have reviewed the accounting treatment of the members' deposits and consider that, according to the club's rules, the possibility of these deposits being refunded is remote. In addition there have been a number of legal claims for repayment of similar deposits against golf clubs that have all failed. There have been no repayments by the club of deposits for in excess of six years and it is unlikely that the club will sell these types of membership in the near future. The deposits are not recorded as a liability but are accounted for as a members' deposits reserve, as the directors consider this to be the most appropriate accounting treatment.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 30 (2019 - 30) .
