Financial Risk Management

The Company follows the board-approved policies of its parent, Vodafone Group Plc, to manage its principal financial risks which include currency risk, credit risk and liquidity risk.

The treasury function of the Vodafone Group provides a centralised treasury service to the Company, and follows a framework of policies and guidelines authorised and reviewed annually by the Vodafone Group Plc Board.

The other financial risks the directors consider relevant to the Company are credit risk and liquidity risk. These risks are mitigated by the fact that the counterparty of the majority of debtor balances are other Vodafone Group companies who are considered able to repay their debts.

The Group's internal auditors review the internal control environment regularly. There has been no significant change during the financial year to the types of financial risks faced by the Company, or the Company's approach to the management of those risks.

Statement of Directors' Responsibilities

The directors are responsible for preparing directors' report and the financial statements in accordance with applicable law and regulations.

Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 102 ('FRS 102').

- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards, including FRS 102 have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. Internet Network Services Limited

Notes to the Financial Statements for the Year Ended 31 March 2017 (continued)

2. Summary of significant accounting policies and key accounting estimates (continued)

Current income tax

Current tax including UK Corporation tax and foreign tax is provided at amounts expected to be paid or recovered, using the tax rates and laws that have been entered or substantively enacted at the balance sheet date.

Investment in subsidiaries

Investments in subsidiaries are held at cost less accumulated impairment losses.

At each balance sheet date, the Company reviews the carrying amounts of its investments to determine whether there is any indication that those investments have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any).

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the investment is reduced to its recoverable amount. An impairment loss is recognised immediately in the income statement.

Where an impairment loss subsequently reverses, the carrying amount of the investment is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined if no impairment loss been recognised for the investment in prior years. A reversal of an impairment loss is recognised immediately in the income statement.

Creditors

Creditors are obligations to pay for goods and services that have been acquired in the ordinary course of business from suppliers. Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

3. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. No estimates or assumptions have been identified as having a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

4. Employees and directors

The company had no employees during the year (2016: none). Directors did not receive any emoluments from the company in respect of their services during the year (2016: Nil).
