Statement of Directors' Responsibilities

Company law requires the directors to prepare financial statements for each period which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements, the directors are required to

- Select suitable accounting policies and then apply them consistently
- Make judgements and estimates that are reasonable and prudent
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that financial statements comply with the Companies Act of 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable action for the prevention and detection of fraud and other irregularities.

By order of the Board

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke extending to the right.
