NOTES TO THE ABBREVIATED ACCOUNTS
for the year ended 31st October 1999

1. ACCOUNTING POLICIES

a) Basis of Preparation of Financial Statements

The financial statements have been prepared under the historical cost convention.

b) Turnover

Turnover comprises the value of sales invoiced to customers, excluding Value Added Tax.

c) Depreciation

Fixed Assets are depreciated on the reducing balance basis at rates estimated to write off the cost of each asset over the period of its expected useful life. The rates used are as follows :

Plant and Equipment	-	15% per annum
Motor Cars	-	25% per annum

d) Leasing and Hire Purchase

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired by finance lease are depreciated over the shorter of the lease term and their useful lives. Assets acquired by hire purchase are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

e) Stocks

Stocks are valued at the lower of cost and net realisable value.

f) Deferred Taxation

Provision is made for timing differences between the treatment of certain items for taxation and accounting purposes except that no provision is made where it can be reasonably foreseen that such deferred taxation will not become payable in the future.

g) Pensions

The company operates a defined contribution pension scheme and the pension charge represents the amounts payable by the company to the fund in respect of the year.
