NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2003

1. ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial statements are set out below and have remained unchanged from the previous year, and also have been consistently applied within the same accounts.

Cash Flow Statement

The company qualifies as a small company and advantage has therefore been taken of the exemption provided by the Financial Reporting Standard No 1 not to prepare a cash flow statement.

Basis of Preparation of Financial Statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

After making enquiries, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason he continues to adopt the going concern basis in preparing the financial statements.

The effect of events in relation to the year ended 31 December 2003 which occurred before the date of approval of the financial statements by the director, have been included in the statements to the extent required to show a true and fair view of the state of affairs at 31 December 2003 and of the results for the year ended on that date.

Depreciation

Depreciation has been computed to write off the cost less estimated residual value of tangible fixed assets over their expected useful lives using the following rates:

Office Equipment	- 25% per annum of cost
------------------	-------------------------

Deferred Taxation

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in full in respect of all material timing differences.

Pension Costs

The company operates pension schemes for the benefit of its employees. The schemes are defined contribution schemes, and the contributions are charged against profits as they are paid.

2. TURNOVER

The company's turnover represents the value, excluding value added tax, of goods and services supplied to customers during the year.
