#### Basis of Preparation of Financial Statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 2000).

After making enquiries, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason he continues to adopt the going concern basis in preparing the financial statements.

The effect of events relating to the year ended 31 December 2000 which occurred before the date of approval of the financial statements by the Board of Directors, has been included in the statements to the extent required to show a true and fair view of the state of affairs at 31 December 2000 and of the results for the year ended on that date.

#### Depreciation

Depreciation has been computed to write off the cost less estimated residual value of tangible fixed assets over their expected useful lives using the following rates:

Office Equipment	- 25% per annum of cost
Plant and machinery	- 25% per annum of cost
Computer equipment	- 50% per annum of cost
Motor vehicles	- 25% per annum reducing balance

#### Stocks

Stocks and work in progress have been valued at the lower of cost and net realisable value; in respect of work in progress and finished goods cost includes a relevant proportion of overheads according to the stage of manufacturing/completion.

#### Deferred Taxation

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in full in respect of all material timing differences.
