NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 OCTOBER 2010

1. ACCOUNTING POLICIES

(a) Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

(b) Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of value added tax and trade discounts

(c) Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases

| Tenants Improvements | 6 67% | straight line |
|------------------------|-------|------------------------|
| Plant and Machinery | 25% | reducing balance basis |
| Office Equipment | 15% | reducing balance basis |
| Furniture and Fixtures | 15% | reducing balance basis |
| Motor Vehicles | 25% | reducing balance basis |

(d) Operating leases

Rentals applicable to operating leases, where substantially all of the benefits and risks of ownership remain with the lessor, are charged to the profit and loss account as incurred

(e) Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow moving items. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

(f) Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax hiabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date

(g) Government grants

2

3

Ordinary Shares of £1 each
