**EDF ENERGY GROUP HOLDINGS PLC**  
**ANNUAL REPORT AND FINANCIAL STATEMENTS**  
**YEAR ENDED 31 DECEMBER 2016**

**STRATEGIC REPORT**

The Directors present their Strategic Report for the year ended 31 December 2016.

**Principal activity**

The principal activity of the Company is that of an intermediary holding company for the EDF Energy plc group of companies. It will continue in this activity for the foreseeable future.

**Review of the business**

The Company has made neither a profit, nor a loss, before taxation in the year (2015: £nil) and the profit after taxation amounted to £nil (2015: £0.5m).

EDF Energy Group Holdings plc is a wholly-owned subsidiary of EDF Energy Holdings Limited (the "Group") which manages its operations on a group basis. For this reason, the Company's Directors believe that further key performance indicators for the Company are not necessary or appropriate for an understanding of the development, performance or position of the business. The performance of the Group, which includes the Company, and future likely developments of the business is discussed in the Group's Annual Report which does not form part of this report.

**Principal risks and uncertainties**

The following is a discussion of the key risks facing the Company together with a summary of the Company's approach to managing those risks.

**Investment risk**

The future prospects of the Company are dependent on the performance of its investment in subsidiaries. The investments in subsidiaries have been reviewed and the carrying value is considered to be recoverable based on their forecast performance.

**Liquidity risk**

Liquidity risk is the risk that the proceeds from financial assets are not sufficient to fund the obligations arising from liabilities as they fall due. The Company's exposure to liquidity risk is reduced by its borrowing facilities in place provided by its shareholders.

The Company is not exposed to any significant currency, interest rate or credit risk.

**ANNUAL REPORT AND FINANCIAL STATEMENTS**  
**YEAR ENDED 31 DECEMBER 2016**

**STRATEGIC REPORT (CONTINUED)**

**Going concern**

As at 31 December 2016, the Company had net current liabilities of £155.4m (2015: £155.4m) and generated no revenues during the year (2015: £nil).

After making enquiries and reviewing cash flow forecasts and available facilities for at least the next 12 months, the Directors have formed a judgement, at the time of approving the financial statements, that there is a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. This judgement has been formed taking into account the fact that the Company's intercompany creditor has agreed not to demand repayment of any balances owed within twelve months from the date of signing these financial statements, to the extent that money is not otherwise available to the Company to meet such liabilities, as well as the principal risks and uncertainties that the Company faces and which have been outlined in more detail elsewhere in the Strategic Report. For this reason the Directors continue to adopt the going concern basis in preparing the financial statements.

**DIRECTORS' RESPONSIBILITIES STATEMENT**

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 101 Reduced Disclosure Framework. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

**NOTES TO THE FINANCIAL STATEMENTS**

**1 General information**

**General information**

EDF Energy Group Holdings plc is a public company limited by shares. It is incorporated in the United Kingdom under the Companies Act 2006 and is registered in England and Wales. The address of the Company's registered office is shown on the contents page.

**Basis of preparation**

The Company meets the definition of a qualifying entity under Financial Reporting Standard 101 (FRS 101) "Reduced Disclosure Framework". These financial statements were prepared in accordance with Financial Reporting Standard 101 (FRS 101) "Reduced Disclosure Framework".

**2 Accounting policies**

**Summary of significant accounting policies and key accounting estimates**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to the period presented, unless otherwise stated.

The financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for the asset. The financial statements are presented in pounds sterling as that is the currency for the primary economic environment in which the company operates.

**Summary of disclosure exemptions**

The Company has taken advantage of the following disclosure exemptions under FRS 101:

- a) the requirements of IFRS 7 Financial Instruments: Disclosures;
- b) the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of paragraph 79(a)(iv) of IAS 1.

**YEAR ENDED 31 DECEMBER 2016**

**2 Accounting policies (continued)**

**Going concern**

After making enquiries and reviewing cash flow forecasts and available facilities for at least the next 12 months, the Directors have formed a judgement, at the time of approving the financial statements, that there is a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. This judgement has been formed taking into account the fact that the Company's intercompany creditor has agreed not to demand repayment of any balances owed within twelve months from the date of signing these financial statements, to the extent that money is not otherwise available to the Company to meet such liabilities, as well as the principal risks and uncertainties that the Company faces and which have been outlined in more detail in the Strategic Report. For this reason the Directors continue to adopt the going concern basis in preparing the financial statements.

**Exemption from preparing group accounts**

The financial statements contain information about EDF Energy Group Holdings plc as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under section 400 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included by full consolidation in the consolidated financial statements of its parent, EDF Energy Holdings Limited, a company incorporated in United Kingdom.

**Taxation**

**Current tax**

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted by the balance sheet date. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

**Deferred tax**

Deferred tax is provided or recognised in full using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax arising from (1) the initial recognition of goodwill, (2) the initial recognition of assets or liabilities in a transaction (other than in a business combination) that affects neither the taxable profit nor the accounting profit, or (3) differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future, is not provided for.

Deferred tax assets are recognised to the extent it is more likely than not that future taxable profits will be available against which the temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply for the period when the asset is realised or the liability is settled based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date.

## **NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**

### **2 Accounting policies (continued)**

Current tax and deferred tax for the year

Current tax and deferred tax are recognised in the income statement, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current tax and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

#### **Investments**

Fixed asset investments are shown at cost less any provision for impairment. Current assets investments are stated at the lower of cost and net realisable value.

#### **Impairment of non-financial assets**

At each balance sheet date, the Group reviews the carrying amounts of its fixed asset investments to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss, if any. Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the investment.

Recoverable amount is the higher of the fair value less costs to sell and the value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the income statement.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the income statement.

### **3 Critical accounting judgements and key sources of estimation uncertainty**

In the process of applying the Group's accounting policies, some critical accounting judgements have been applied by management and some balances are based on estimates.

#### **Recoverability of investments**

The Company reviews the recoverability of investments on an annual basis where there is an indicator of impairment. The impairment review involves a number of assumptions including discount rates, output values, asset lives and forward power prices.

### **4 Operating profit**

In 2016 an amount of £6,000 (2015: £6,000) was paid to Deloitte LLP for audit services. This charge was borne by another Group company in both the current and prior year. In 2016, amounts payable to Deloitte LLP by the Company in respect of other assurance services was £nil (2015: £nil).
