WILLIS CORROON LICENSING LIMITED

STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2013

Company activities and review of developments

The Company is a subsidiary of Willis Group Holdings plc ('the Group') and acts as a collector of royalty payments from wholly-owned subsidiary undertakings within the Group to whom the use of certain trademarks has been sub-licensed. The Group is one of the world's leading professional service providers of risk management solutions, risk transfer expertise through insurance and reinsurance broking, and related specialised consultancy services.

There have been no significant changes in the Company's principal activities in 2013. The Directors are not aware, at the date of this report, of any likely major changes in the Company's activities in the next year.

Results

The profit on ordinary activities after taxation amounted to £3 million (2012: £3 million) as shown in the profit and loss account on page 8. The Company reported an operating profit of £4 million for the year (2012: £4 million).

Balance sheet

The balance sheet on page 9 of the financial statements shows the Company's financial position at the year end. Net assets have decreased by £13 million as a result of increase in the amount owed to other Group undertakings.

The Group manages its operations on a divisional basis. For this reason, the Company's Directors believe that further key performance indicators for the Company are not necessary or appropriate for an understanding of the development, performance or position of the business. The performance of the Group, which includes the Company, is discussed in the Group's financial statements which do not form part of this report.

Principal risks and uncertainties

The Company has intercompany balances with fellow Group undertakings in currencies other than pounds sterling, its functional currency, and is therefore exposed to movements in exchange rates. The Group's treasury function takes out contracts to manage this risk at a Group level.

This Company is also exposed to additional risks by virtue of being part of the wider Group, including those relating to the current Eurozone situation. These risks have been discussed in the Group's financial statements which do not form part of this report.

Environment

The Group recognises the importance of its environmental responsibilities, and its impact on the environment on a location by location basis, and designs and implements policies to reduce any damage that might be caused by the Group's activities.

Employees

The Company employed no staff during the year (2012: none).

In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.
