DIRECTORS' REPORT

The Directors have pleasure in presenting the annual report and the unaudited financial statements for the year ended 30 September 2009

PRINCIPAL ACTIVITY

Ultima Care Limited was previously engaged in the operation of nursing and residential care homes. Since October 2001, the Company has not traded, save for activities to clear up outstanding trade balances. The Company has been dormant, as defined in Section 1169 of the Companies Act as of the end of the previous financial year.

DIRECTORS

The following Directors served during the year except as noted

	<u>Date Appointed</u>	<u>Date Resigned</u>
P H Thompson	6 November 2009	-
M J Grant	2 July 2009	6 November 2009
D C Nicholson	-	2 July 2009
J M J M Jensen	19 December 2008	-
P V Taylor	-	19 December 2008

The current Directors of the Company are detailed on page 1

The Company has made qualifying third party indemnity provisions for the benefit of its Directors, which were made during the year and remain in force to the date of this report.

GOING CONCERN

The Company is a guarantor for a loan entered into by another group company.

As at 30 September 2009, the Group had a term loan of £70 million (the "Mezzanine Loan") and a term loan of £1,172 million (the "Senior Loan") secured on the Group's investment properties and freehold land and buildings. As at 10 February 2010, the loan amounts remain outstanding. The original final maturity date of the Senior Loan was 15 January 2009 and of the Mezzanine Loan was 15 February 2009 (each, the "original final maturity date"), with an option to extend these loans to 15 January 2010 and 15 February 2010 respectively (each, the "final maturity date"), in each case provided (among other things) that no default was outstanding at the original final maturity date.

However, a fall in property values in the period to 30 September 2008 and a further fall in the period to 15 December 2008 resulted in the breach of, among other things, the loan to value ('LTV') financial covenant with respect to the Senior Loan (resulting in an automatic cross-default with respect to the Mezzanine Loan). As a result, the Group was not in a position to extend the loans to the final maturity date. Other breaches of the terms of the loan documents, chiefly concerning information covenants, also resulted in defaults with respect to the Senior Loan and the Mezzanine Loan.

Since 28 November 2008 the Directors of the Company have been in ongoing discussions with Capita Asset Services (UK) Limited ("Capita") (formerly Capmark Services UK Limited), the special servicer to the Senior Loan under the securitisation structure (which operates on a back-to-back basis with the Senior Loan) and have entered into a series of standstill agreements which suspend the rights of the creditors with respect to the Senior Loan and the Mezzanine Loan to enforce their rights under the loan documents and related security. On 14 January 2010 a further standstill agreement was put in place, expiring 14 April 2010.

DIRECTORS' REPORT

GOING CONCERN (Continued)

As at 30 September 2009, the Directors were advised by their valuers, King Sturge LLP, that the appropriate yield for the Portfolio was 8.34%, and the value of the Portfolio was £849.65 million after costs of 1.75%, valued on the basis of the properties being sold as a business. The LTV ratio at that time was 150.55%. Due to a continued fall in property values and the default interest charges, the Group was in a net liability position of £579.86 million as at 30 September 2009.

In late 2009 Capita engaged King Sturge LLP with a view to obtaining an updated property valuation. According to this valuation, as at 23 December 2009 the appropriate yield for the Group's portfolio was 8%, and the value of the portfolio had improved by £36.57 million to £886.22 million after costs of 1.75%, valued on the basis of the properties being sold as a business. As of 15 January 2010 the LTV ratio is 143.59%.

Since January 2009, the Directors have been relying on a confirmation from Capita that for so long as discussions with respect to a potential reorganisation of the affairs of the Group and a restructuring of its debt obligations (the "Potential Restructuring") are continuing, and on the understanding that such funds shall not be applied in contravention of the terms relating to the Senior Loan, it is the intention of the creditors with respect to the Senior Loan to provide the Group with the funds it requires to make payments falling due as a consequence of the Group carrying on its business (including, without limitation, (a) day to day operating costs and expenses, (b) restructuring costs, and (c) other exceptional costs incurred in relation to the Potential Restructuring) from the Senior Borrower's cash reserve account within a reasonable time upon request.

Given these circumstances, the Directors do not currently expect the Company to go into insolvent liquidation, although this position could change if the negotiations for which the current standstill agreement allows were to fail. Given the above, there is a material uncertainty which may cast significant doubt as to the Group's ability to continue as a going concern and therefore indicate that the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

Nonetheless, at the present time, the Directors consider it appropriate to prepare the financial statements on the going concern basis. In the event that a going concern basis should become inappropriate, the assets of the Group would be written down to their recoverable value and provision made for any further liabilities that may arise. At this time it is not practicable to quantify such adjustments. See further details in note 1 to the financial statements.

NOTES TO THE ACCOUNTS

Year ended 30 September 2009

1. GOING CONCERN

The Company is a guarantor for a loan entered into by another group company

As at 30 September 2009, Libra No 2 Limited (the Company's intermediate parent undertaking) (the "**Mezzanine Borrower**") had a term loan of £70 million (the "**Mezzanine Loan**") and Libra No 3 Limited (a subsidiary of the Mezzanine Borrower) (the "**Senior Borrower**") had a term loan of £1,172 million (the "**Senior Loan**") secured on the investment properties and freehold land and buildings (the "**Portfolio**") of the Mezzanine Borrower and its subsidiaries (the "**Group**") As at 10 February 2010, the loan amounts remain outstanding The original final maturity date of the Senior Loan was 15 January 2009 and of the Mezzanine Loan was 15 February 2009 (each, the "**original final maturity date**"), with an option to extend these loans to 15 January 2010 and 15 February 2010 respectively (each, the "**final maturity date**"), in each case provided (among other things) that no default was outstanding at the original final maturity date

However, a fall in property values in the period to 30 September 2008 and a further fall in the period to 15 December 2008 resulted in the breach of, among other things, the loan to value ('LTV') financial covenant with respect to the Senior Loan (resulting in an automatic cross-default with respect to the Mezzanine Loan) As a result, the Group was not in a position to extend the loans to the final maturity date Other breaches of the terms of the loan documents, chiefly concerning information covenants, also resulted in defaults with respect to the Senior Loan and the Mezzanine Loan

Under the terms of the respective loan documents, the Senior Borrower was required to make repayment of the Senior Loan on 15 January 2009 and the Mezzanine Borrower was required to make repayment of the Mezzanine Loan on 15 February 2009 These repayments were not made As a result, the respective borrowers have become liable for an additional 2% default interest with respect to the overdue amounts The default interest amounts have contributed to a breach of the interest cover ratio ('ICR') financial covenant in relation to the Senior Loan (resulting in an automatic cross-default with respect to the Mezzanine Loan)

Since 28 November 2008 the Directors of the Company have been in ongoing discussions with Capita Asset Services (UK) Limited ("**Capita**") (formerly Capmark Services UK Limited), the special servicer to the Senior Loan under the securitisation structure (which operates on a back-to-back basis with the Senior Loan) and have entered into a series of standstill agreements which suspend the rights of the creditors with respect to the Senior Loan and the Mezzanine Loan to enforce their rights under the loan documents and related security On 14 January 2010 a further standstill agreement was put in place, expiring 14 April 2010

In order for the Group to continue to trade as a going concern, the Directors of each of the entities in the Group need to be satisfied that they will continue to be able to meet their operating costs and expenses as they fall due The Directors have prepared cash flow forecasts covering the period to 28 February 2011 which indicate that there is a shortfall in the operational cash flow of the Company during that period The cash flow forecasts also indicate that the ICR test will continue not to be met throughout the testing period

1 GOING CONCERN (Continued)

Since January 2009, the Directors have been relying on a confirmation from Capita that for so long as discussions with respect to a potential reorganisation of the affairs of the Group and a restructuring of its debt obligations (the "Potential Restructuring") are continuing, and on the understanding that such funds shall not be applied in contravention of the terms relating to the Senior Loan, it is the intention of the creditors with respect to the Senior Loan to provide the Group with the funds it requires to make payments falling due as a consequence of the Group carrying on its business (including, without limitation, (a) day to day operating costs and expenses, (b) restructuring costs, and (c) other exceptional costs incurred in relation to the Potential Restructuring) from the Senior Borrower's cash reserve account within a reasonable time upon request

At this time it is not practicable to quantify such adjustments.

2. ACCOUNTING POLICIES

Except as stated above, the financial statements are prepared under the historical cost convention, in accordance with all applicable United Kingdom accounting. The particular accounting policies adopted are described below.

The accounting policies have been followed consistently during the current and previous years.

Interest

Interest receivable and interest payable are recognised in the financial statements on an accruals basis.

Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is provided in full on timing differences which have originated at the balance sheet date and which could give rise to an obligation to pay more or less tax in the future. Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is not recognised in respect of gains and losses on revalued assets unless the company has entered into a binding agreement to sell the assets and the gains or losses have been recognised in the profit and loss account. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Cash flow statement

As the Company is a wholly-owned subsidiary, it has taken exemption under the terms of Financial Reporting Standard 1 (revised 1996) 'Cash flow statements' from preparing a cash flow statement, as it is included in the consolidated financial statements of Libra No 2 Limited, which are publicly available.
