Notes to the Abbreviated Accounts
for the year ended 31st January 2013

1. **ACCOUNTING POLICIES**

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents amounts receivable for goods and services provided in the normal course of business, net of trade discounts, VAT and other sales related taxes.

Turnover is recognised as earned when, and to the extent that, the company obtains the right to consideration in exchange for performance of contracted services.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	- 15% on reducing balance
Computer equipment	- 33% on reducing balance

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation is accounted for at expected tax rates on all differences arising from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. A deferred tax asset is only recognised when it is more likely than not that the asset will be recoverable in the foreseeable future out of suitable taxable profits from which the underlying timing differences can be deducted.

Fixed asset capitalisation

Tangible fixed assets are stated at cost or valuation, net of depreciation and any provision for impairment.
