Statement of directors' responsibilities in respect of the Directors' Report and the financial statements

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice)

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2009

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

1.1 Accounting convention

The financial statements are prepared in accordance with applicable accounting standards (UK GAAP) and under the historical cost convention

The company has taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from the requirement to produce a cash flow statement on the grounds that it is a subsidiary undertaking where 90 percent or more of the voting rights are controlled within the group

1.2 Going concern

After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements

1.3 Turnover

Turnover derived from an interest in investment property is recognised in the profit and loss account when received

1.4 Deferred taxation

The charge for taxation is based on the result for the year and takes account of taxation deferred because of timing differences between the treatment of certain items for taxation and treatment under the company's accounting policies

Deferred tax assets and liabilities arise from timing differences between the recognition of gains and losses in the financial statements and their recognition in a tax computation

In accordance with FRS19, deferred tax is provided in respect of all timing differences that have originated but not reversed at the balance sheet date that may give rise to an obligation to pay more or less tax in the future except as otherwise provided by FRS19. Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on the sale has been recognised in the financial statements. Deferred tax is measured on a non-discounted basis

2 Turnover

Turnover is generated in the UK and from the company's principal activity

3 Loss on ordinary activities before taxation

Auditors' remuneration of £650 (2008: £485) was borne by another group company

Fees paid to the company's auditors, KPMG Audit Plc and its associates for services other than statutory audit of the company are not disclosed in the company's accounts since the consolidated accounts of the company's parent, The UNITE Group plc are required to disclose non audit fees on a consolidated basis

Directors' remuneration was borne by another group company in respect of both years
