### 1 Accounting policies

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment properties and freehold land and buildings

The following principal accounting policies have been applied

#### *Going concern*

The directors are required to make an assessment of the company's ability to continue as a going concern

Since the year end the group has entered into a reconstruction and refinancing transaction and as part of this all of the company's assets and liabilities, including the freehold land and buildings, have been transferred to Nilerace Limited, a related undertaking at break up value. Therefore this company has ceased to operate on 6 November 2012. The financial statements have therefore been prepared on a break up basis with all assets being included within the financial statements at their recoverable amount and all known liabilities accrued for. The company ceased to operate from 6 November 2012.

#### *Turnover*

Turnover is wholly attributable to the principal activity of the company and arises solely within the United Kingdom

#### *Land and buildings*

Land and buildings are revalued to market value at the balance sheet date with any surplus taken to the revaluation reserve

The profit or loss on disposal of revalued properties is calculated by reference to net book value and any realised revaluation surplus is transferred to the profit and loss account through reserves

#### *Depreciation*

Depreciation is provided to write off the cost, less estimated residual values, of all tangible fixed assets, except for investment properties and freehold land, evenly over their expected useful lives. It is calculated at the following rates

Freehold property - 2% straight line

#### *Investment properties*

Investment properties are revalued annually to open market value and no depreciation is provided. The directors consider that this accounting policy results in the financial statements giving a true and fair view. The effect of this departure from the Companies Act 2006 has not been quantified because it is impracticable and, in the opinion of the directors, would be misleading.

The aggregate surplus or deficit arising on revaluation is transferred to the revaluation reserve except where a deficit is deemed to represent a permanent diminution of value, in which case it is charged to the profit and loss account.

#### *Deferred taxation*

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that

- deferred tax is not recognised on timing differences arising on revalued properties unless the

## Notes forming part of the financial statements for the year ended 6 November 2012 (continued)

### 1 Accounting policies (continued)

#### Deferred taxation (continued)

- company has entered into a binding sale agreement and is not proposing to take advantage of rollover relief, and
- the recognition of deferred tax assets is limited to the extent that the company anticipates making sufficient taxable profits in the future to absorb the reversal of the underlying timing differences

Deferred tax balances arising from underlying timing differences in respect of tax allowances on industrial buildings are reversed if and when all conditions for retaining those allowances have been met

Deferred tax balances are not discounted

#### Prior year adjustment

In the financial statements for the year ended 6 November 2011 freehold property has been incorrectly disclosed as Investment Property in contravention of the clauses included in Statement of Standard Accounting Practice 19 "Accounting for Investment Properties" as the property was let to a group company from September 2011

In addition the properties were impaired in the year ended 6 November 2011 following the tenant, Southern Cross Healthcare Group Plc, defaulting on their lease and entering a Creditors Voluntary Arrangement. The properties have been restated at their recoverable amount of £1,016,071. The effect of this adjustment is to decrease the value of fixed assets by £5,257,929 and the revaluation reserve by the same amount in the year ended 6 November 2011

### 2 Exceptional item

Exceptional costs in 2011 relate to a property impairment charge of £5,257,929, which the directors believe is required to reflect the recoverable amount of the property as at 6 November 2011

### 3 Turnover

Turnover arises solely within the United Kingdom

## **13 Post balance sheet events**

On 8 November 2012 the company's intermediate holding company, Akari Care Group Limited (formerly BC2 Limited) was sold AK (SPV) Limited. The company is therefore no longer one of the Bondcare group companies.

Since the year end the group has entered into a reconstruction and refinancing transaction and as part of this all of the company's assets and liabilities, including the freehold land and buildings, have been transferred to Nilerace Limited, a related undertaking at break up value. Therefore this company has ceased to operate on 6 November 2012. The financial statements have therefore been prepared on a break up basis with all assets being included within the financial statements at their recoverable amount and all known liabilities accrued for. The company ceased to operate from 6 November 2012.

## **14 Prior year adjustment**

During the previous financial year the company's tenant, Southern Cross Healthcare Group Plc, defaulted on their lease and entered a Creditors Voluntary Arrangement. The directors believe that a resulting impairment to the value and a reclassification to tangible fixed assets of the company's property is required to show a true and fair view of the company's position.

The financial statements include a directors valuation, before depreciation, of £1,016,071 for the recoverable amount for freehold land and buildings as at 6 November 2011 and the comparatives have been restated to reflect this. The effect of this adjustment is to decrease the value of fixed assets by £5,257,929 and the revaluation reserve by the same amount in the year ended 6 November 2011.
