Directors' report (continued) For the financial year ended 31 December 2017

Statement of director's responsibilities

The director is responsible for preparing the Annual report and the financial statements in accordance with applicable law and regulation.

Company law requires the director to prepare financial statements for each financial year. Under that law, the director has prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law).

Under company law the director must not approve the financial statements unless he is satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the director is required to:

- select suitable accounting policies and then apply them consistently;
- state whether UK Accounting Standards, including FRS101, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The director is responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable him to ensure that the audited financial statements comply with the Companies Act 2006.

The director is also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditors

As permitted by s480 of the Companies Act 2006, the company is exempt from preparing audited accounts as it has remained dormant since the end of the previous financial year.

Small companies note

In preparing this report, the directors have taken advantage of the small companies exemptions provided by section 415A of the Companies Act 2006.

This report was approved by the board and signed on its behalf.

Notes to the financial statements For the financial year ended 31 December 2017

1. General information

Finsbury (Development) Limited ("the company") is a private company limited by shares and is incorporated and domiciled in the United Kingdom. Its registered address is St Anthonys Road, Beeston, Leeds, West Yorkshire, LS11 8DT, United Kingdom. The company is dormant and has not traded during the year.

Finsbury Orthopaedics Limited is the company's immediate parent company.

Johnson & Johnson, incorporated in the United States of America, is the company's ultimate parent company.

Johnson & Johnson prepares group financial statements and is both the smallest and largest group for which group financial statements are drawn up and of which Finsbury (Development) Limited is a member. Copies of the consolidated financial statements may be obtained from Johnson & Johnson, One Johnson & Johnson Plaza, New Brunswick, New Jersey 08933, USA.

As the company is a wholly owned subsidiary of Johnson & Johnson, the group financial statements of which are publicly available, advantage is taken of the exemption from disclosing transactions with group companies and from presenting a cash flow statement.

These financial statements are the company's separate financial statements for the financial year beginning 2 January 2017 and ending 31 December 2017.

The company's reporting period ends on the Sunday closest to 31 December, being 31 December 2017 for the current year (52 weeks) and 1 January 2017 for the prior year (52 weeks).

Basis of preparation

The financial statements of Finsbury (Development) Limited have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' (FRS 101). The financial statements have been prepared under the historical cost convention and in accordance with the Companies Act 2006. The principal accounting policies which have been consistently applied throughout the year are set out below.

As permitted by the Companies Act 2006, the director has adapted the prescribed format of the income statement in a manner appropriate to the nature of the company's business.

The preparation of financial statements in conformity with FRS 101 requires the use of certain accounting estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. It also requires management to exercise its judgment in the process of applying the company's accounting policies. Although these estimates are based on management's best knowledge of the amount, event of actions, actual results ultimately may differ from these estimates.

FRS 101 sets out a reduced disclosure framework for a 'qualifying entity' as defined in FRS 101 which addresses the financial reporting requirements and disclosure exemptions in the financial statements of qualifying entities that otherwise apply the recognition, measurement and disclosure requirements of EU-adopted IFRS.

The company is a qualifying entity for the purposes of FRS 101. Detail of the company's parent and where its consolidated financial statements prepared in accordance with Generally Accepted Accounting Practice considered to be an equivalent to IFRS may be obtained as set out in note 9 to the financial statements.

Foreign currency translation

a) Functional and presentation currency

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). The financial statements are presented in Pounds Sterling (£), which is also the company's functional currency.

b) Transactions and balances

Foreign currency translations are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

Financial instruments

The company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The company's accounting policy in respect of financial instruments transactions are explained below.

2. (continued)

Financial instruments (continued)

a) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets, the company's loans and receivables comprise 'debtors' in the statement of financial position.

Trade and other receivables

Trade and other receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised at fair value less provisions for impairments.

Current and deferred income tax

The tax expense for the period comprises current tax and deferred tax. Tax is recognised in the income statement.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the date of the statement of financial position. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It established provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred Income tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates that have been enacted or substantively enacted by the date of the statement of financial position and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which temporary differences can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.
