The notes on pages 2 to 6 form an integral part of these financial statements.

## STREETE COURT LEISURE LIMITED

### Notes to the Financial Statements for the Year Ended 30 April 2020

---

#### 1 GENERAL INFORMATION

The company is a private company limited by share capital, incorporated in England and Wales.

The address of its registered office is:

Streete Court  
Rooks Nest Park  
Godstone  
Surrey  
RH9 8BY

The principal activity of the company is that of investment in property and management of a golf course.

#### 2 AUDIT REPORT

The Independent Auditor's Report was unqualified. The name of the Senior Statutory Auditor who signed the audit report on 10 February 2021 was Martin Widdowson, who signed for and on behalf of Brebners.

#### 3 ACCOUNTING POLICIES

##### Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

##### Basis of preparation

These financial statements have been prepared using the historical cost convention except any items disclosed in the accounting policies as being shown at fair value and are presented in sterling, which is the functional currency of the entity.

##### Going concern

The company made a profit for the year ended 30 April 2020 and had net assets at that date of £134,175.

At 30 April 2020 a net amount of £5,783,748 was due to other group undertakings who have confirmed they will not call for repayment until such time as the company has sufficient working capital and will continue to provide the company with working capital facilities. Having made full enquiry the directors have prepared the financial statements using the going concern concept which they believe remains appropriate.

The directors have considered the potential effect of the current COVID-19 pandemic and, although there is no certainty as to when this will end, the directors current view is that the impact has been manageable. The company took advantage of the government CJRS and other schemes during the period of the lockdown restrictions and took other measures to control overheads where possible.

The company has continued to trade during the lock down restrictions although, at a reduced level and remains profitable. The directors are pleased with how the business has performed since the lockdown restrictions were lifted and are confident that business will continue.

On the basis of the above, and after making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the directors continue to adopt the going concern basis in preparing the financial statements.

### Notes to the Financial Statements for the Year Ended 30 April 2020

---

#### Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the company's activities, together with the rental income receivable in respect of the investment property.

Turnover represents members' club subscriptions receivable, green fees and other golfing and ancillary income receivable from members and visitors. Membership fees received in advance are released to the income statement over the relevant period. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

Rental income is recognised evenly over the period of the lease or license.

#### Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

#### Tangible assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

#### Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Plant and machinery	20% straight line
Fixtures and fittings	25% straight line
Freehold buildings	2% straight line

Freehold land is not depreciated.

Freehold buildings are depreciated over their economic useful life at cost less estimated residual value. The estimated residual value is such that no material annual depreciation charge arises.

### **Notes to the Financial Statements for the Year Ended 30 April 2020**

---

#### **Investment property**

Investment property is carried at fair value, derived from the current market prices for comparable real estate determined annually by external valuers. The valuers use observable market prices, adjusted if necessary for any difference in the nature, location or condition of the specific asset. Changes in fair value are recognised in profit or loss.

#### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

#### **Stocks**

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first-in, first-out (FIFO) method.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. At each reporting date, stocks are assessed for impairment. If stocks are impaired, the carrying amount is reduced to its selling price less costs to complete and sell; the impairment loss is recognised immediately in profit or loss.

#### **Share capital**

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

#### **Defined contribution pension obligation**

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the company has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

#### **4 STAFF NUMBERS**

The average number of persons employed by the company during the year was 5 (2019 - 6).
