Principal risks and uncertainties

Financial instrument risks

The financial instruments held by the Group comprise cash and an investment that arise directly from its operations.

It is, and has been throughout the year under review, the Group's policy that no trading in financial instruments shall be undertaken.

The main risk arising from the Group's financial instruments is liquidity risk. Liquidity risk is the risk that investment income receivable by the Group will not arise on a timely manner to meet the Group's obligations as they fall due. The on-going liquidity risk is closely monitored by the directors.

Statement of directors' responsibilities

The directors are responsible for preparing the Director's report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and of the Company and of the profit or loss of the Group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Notes to the financial statements

1. Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Group's financial statements.

Basis of accounting

The financial statements have been prepared on a going concern basis and in accordance with applicable UK accounting standards and under the historical cost convention.

Basis of consolidation

The Group's financial statements consolidate the financial statements of the Company and all its subsidiaries for the year ended 30 November 2018. All the subsidiaries are accounted for using acquisition accounting.

In accordance with section 408 (4) of the Companies Act 2006, PRS 1 Limited is exempt from the requirement to present its own profit and loss account. The result for the year of PRS 1 Limited is disclosed in note 7 to the financial statements.

Fixed asset investment

The Company's investment in its subsidiary company is stated at cost, less provision for diminution in value where the directors consider this necessary.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or right to pay less tax, with the following exceptions:

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Expenses

Interest receivable, interest payable and expenses are accounted for on an accruals basis.
