_					***********

The director considers that the company is entitled to exemption from the requirement to have an audit under the provisions of s 477 (1) of the Companies Act 2006. Members have not required the company, under s 476 of the Companies Act 2006, to obtain an audit for the year ended 31st August 2009. The director acknowledges their responsibilities for ensuring that the company keeps accounting records which comply with s 386 and 387 of the Companies Act 2006, and for preparing accounts which give a true and fair view of the state of affairs of the company as at 31st August 2009 and of its profit for the year then ended in accordance with the requirements of s 396 and which otherwise comply with the requirements of the Act relating to the accounts so far as applicable to the company

The financial statements, which have been prepared in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006 were approved by the board on 30th May 2010 and are signed on its behalf

A M Tyler - Director

The notes on pages 4 to 7 form part of these financial statements

Notes to the financial statements for the year ended 31st August 2009

1. Accounting policies

1.1 Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax and trade discounts

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation

Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases

Plant equipment and tools	15%	reducing balance basis
Fixtures and fittings	15%	reducing balance basis
Motor vans	20%	reducing balance basis

1.4 Leasing and hire purchase

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired by finance lease are depreciated over the shorter of the lease term and their useful lives. Assets acquired by hire purchase are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to profit and loss account as incurred

Stocks and work in progress

Stocks and work in progress are valued at the lower of cost, and net realisable value after making due allowance for obsolete and slow-moving stocks. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads. Work in progress is reflected in the accounts on a contract by contract basis by recording turnover and related costs as contract activity progresses.

1 6 Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the material timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

Notes to the financial statements for the year ended 31st August 2009

2. Turnover

In the year to 31st August 2009 and that of the preceding year, all of the company's turnover was to markets inside the United Kingdom

3. Operating profit

The operating profit is stated after charging
