WYNNSTAY CORPORATE ADVISORY LIMITED

Notes to the abbreviated financial statements for the year ended 30th November 2007

1. Principal accounting policies

The financial statements have been prepared in accordance with applicable Accounting Standards in the United Kingdom. A summary of the more important accounting policies, which have been applied consistently, is set out below.

Basis of accounting

The financial statements are prepared in accordance with the historical cost convention.

Fixed asset investments

Fixed asset investments are stated at cost. Shares held within trusts are written down to their recoverable amount, being the exercise price of options granted over them. Provision is made where there is an impairment in the value of the investment.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date and that result in an obligation to pay more tax in the future or right to pay less tax in the future. A net deferred tax asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

Recognition of profit share

The profit share allocation from membership of Brunswick Corporate Advisory LLP is recognised in the accounting period in which it is earned and reflects the actual amount allocated.
