NOTES TO THE ACCOUNTS AT 31/03/2009

1. ACCOUNTING POLICIES

1a. Basis of accounting

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

1b. Taxation

Corporation tax payable is provided on taxable profits at the current rate.

Provision is made for deferred taxation in so far as a liability or asset has arisen as a result of transactions that had occurred by the balance sheet date and have given rise to an obligation to pay more tax in the future, or the right to pay less tax in the future. An asset has not been recognised to the extent that the transfer of economic benefits in the future is uncertain. Deferred tax assets and liabilities recognised have not been discounted.

1c. Leases

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet at their fair value and depreciated over their expected useful lives. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the profit and loss account over the period of the lease. All other leases are regarded as operating leases and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.
