1 Accounting policies

The accounts have been prepared and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007)

Turnover

Turnover represents charges to external customers exclusive of Value Added Tax and trade discounts

Depreciation of fixed assets

Depreciation has been computed to write off the cost of fixed assets over their expected useful lives at the following rates -

Fixtures and fittings 33 1/3 % on a straight line basis

A full year's depreciation is charged in the year of acquisition of an asset, but none in the year of disposal

Stocks

Stocks and work in progress are valued consistently at the lower of cost (on first in first out basis) or net realisable value

Debtors

Debtors are shown after providing for any amounts which the directors consider may not be collected in full

Deferred taxation

Deferred taxation is provided in full on timing differences, arising from the different treatment of items for accounting and tax purposes, which are expected to reverse in the future, calculated at the rates at which it is expected that tax will arise. An asset is recognised where there is no uncertainty as to the transfer of future economic benefits. Deferred tax assets and liabilities are not discounted

Group accounts

Consolidated accounts have not been prepared by virtue of the group, as headed by the company, qualifying as a small group in accordance with section 248 and 249 of the Company Act 1985. These financial statements therefore present information about the company as an individual undertaking and not about its group
