## NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31ST DECEMBER 2010

### 1. ACCOUNTING POLICIES

#### Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

#### Turnover

The turnover shown in the profit and loss account represents amounts due for services provided during the year, exclusive of Value Added Tax

#### Fixed assets

All fixed assets are initially recorded at cost

#### Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Plant & Machinery	- 20% per annum
Fixtures & Fittings	- 20% per annum
Motor Vehicles	- 20% per annum
Equipment	- 25% per annum

#### Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items

#### Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease

#### Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on a discounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

**ABRAXUS LIMITED****NOTES TO THE ABBREVIATED ACCOUNTS****YEAR ENDED 31ST DECEMBER 2010****1 ACCOUNTING POLICIES (continued)****Foreign currencies**

An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
