1 ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and include the results of the company's operations, all of which are continuing

1.2 Cash flow

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company

Earnings in excess of amounts remitted are included in the carrying value of investments. Where the carrying value of investments thus derived is in excess of the recoverable amount a provision for impairment in value is made. The cost of the capital invested in the company's investment is carried at its historic cost amount, less any provisions for impairment required.

1.4 Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

1.5 Foreign currencies

Monetary assets and liabilities in foreign currencies are translated into US dollars at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into US dollars at the rate ruling on the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.
