**Director**

## **Notes**

*(forming part of the abbreviated accounts)*

### **1 Accounting policies**

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

#### ***Basis of preparation***

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounts rules

Under Financial Reporting Standard 1 the company is exempt from the requirement to prepare a cash flow statement on the grounds of its size

#### ***Fixed assets and depreciation***

There are no fixed assets at 31 March 2012

#### ***Taxation***

The charge for taxation is based on the result for the year. Deferred tax is recognised without discounting in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS19

There is no liability for taxation in the current year or prior year

#### ***Turnover***

Turnover represents referral fees and insurance policy premiums (excluding value added tax) derived from the successful referral of a file to a third party law firm

Following referral a number of cases are expected to subsequently fail, and in these circumstances the file referral fee is reimbursed to the appropriate law firm. These accounts take account of any file which failed subsequent to the referral, up to the date of signing these accounts. On these failed files, no account of the insurance policy premium is included

#### ***Insurance Premium***

The insurance premium is tiered. Stage 2 (issue) and Stage 3 (which is determination of the case through the courts) carry a higher insurance premium. The accounts include an adjustment for the actual cost of the higher premium paid up to the date of signing these accounts
