Principal accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The accounting policies have remained unchanged from the prior year and are set out below

Financial instruments

Included in the share capital and reserves shown in the balance sheet is an amount of £360,000 in respect of redeemable preference shares. The directors of the company have selected not to adopt FRS25 disclosure whereby the substance of the financial instrument is that of a financial liability since the shares are redeemable at par on 31 October 2010, if not already redeemed earlier by the company. Had FRS25 been adopted, the share capital and reserves would be reduced by £360,000 to a deficit of £360,000 and creditors falling due in greater than one year should be increased by £360,000 to £360,000. This would have no effect on the profit and loss of the company.
