AZTEC COMMERCIAL INTERIORS LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 30 NOVEMBER 2014

1. Accounting policies

Accounting convention. The accounts are prepared under the historical cost convention and the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover. Turnover represents revenue recognised in the accounts. Revenue is recognised when the company fulfils its contractual obligations to customers by supplying goods and services and excludes value added tax. (Where services are performed gradually over time revenue is recognised as activity progresses by reference to the value of the work performed.)

Depreciation of tangible fixed assets is provided at the following rates in order to write off each asset over its estimated useful life:

Motor vehicles	25% reducing balance
Office equipment	25% reducing balance

Stocks and work in progress are valued at the lower of cost and net realisable value, after making an allowance for obsolete and slow moving items. Cost includes all direct expenditure and appropriate proportion of fixed and variable overheads.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Deferred tax is not recognised when assets are revalued unless, by the balance sheet date, the company has entered into a binding agreement to sell the assets and recognised the gains and losses expected to arise on sale or where assets have been sold and it is expected that the taxable gain will be rolled over into a replacement asset.
