**Notes to the abbreviated financial statements**
**for the year ended 30 June 2005**

## 1. Accounting policies

### 1.1. Accounting convention
The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

### 1.2. Turnover
Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

### 1.3. Goodwill
Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of 3 years.

### 1.4. Tangible fixed assets and depreciation
Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and machinery - 15% reducing balance basis

### 1.5. Stock
Stock is valued at the lower of cost and net realisable value.

### 1.6. Pensions
The pension costs charged in the financial statements represent the contribution payable by the company during the year.

The regular cost of providing retirement pensions and related benefits is charged to the profit and loss account over the employees' service lives on the basis of a constant percentage of earnings.

**1.7. Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
