The financial statements have been prepared under the historical cost convention.

Taxation

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

11. GOING CONCERN

The apprenticeship support industry was impacted heavily by the COVID-19 outbreak. Throughout the UK, less companies took on apprentices and there was a costly switch for education providers from classroom to online learning. The company was impacted by this and had to invest in additional staff and resources to transition the move over to online classroom delivery.

At the balance sheet date, the company's liabilities exceeded its assets. The company's directors have done relevant cash flow and profit and loss projections and believe that the company will be in a position to trade for at least the next 12 months. On this basis, the directors consider it appropriate to prepare the accounts on a going concern basis.

The accounts do not include any adjustment to the company's assets or liabilities that might be necessary should this basis not continue to be appropriate.

This document was delivered using electronic communications and authenticated in accordance with the registrar's rules relating to electronic form, authentication and manner of delivery under section 1072 of the Companies Act 2006.
