**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 MARCH 2016**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover

The turnover and profit before taxation are attributable to the one principal activity of the company. The company's policy is to recognise a sale when substantively all the risks and rewards in connection with the sale have been passed to the buyer.

Deferred tax

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. In accordance with the Financial Reporting Standard for Smaller Entities, deferred tax is not recognised on revaluation gains. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
