AB InBev Africa Investments Limited (formerly SABMiller Africa Investments Limited)

Directors' report for the year ended 31 December 2017

The directors present their report and unaudited financial statements of AB InBev Africa Investments Limited (formerly SABMiller Africa Investments Limited) (the "Company") for the year ended 31 December 2017.

Principal activities and future developments

The Company acts as a holding and financing company for various subsidiary and associated undertakings within the Anheuser-Busch InBev SA/NV group (the "Group").

On 28 September 2016, the shareholders of SABMiller plc, the then ultimate parent undertaking, approved an offer by Anheuser-Busch InBev SA/NV to acquire SABMiller plc (the "transaction"). Prior to the completion of the transaction, on 6 October 2016, SABMiller plc delisted from the London Stock Exchange and re-registered as a private limited company under the name SABMiller Limited. On 8 October 2016 Anheuser-Busch InBev SA/NV acquired SABMiller Limited and on 10 October 2016, control of the SABMiller Group transferred to Anheuser-Busch InBev SA/NV and the SABMiller Group became part of the AB InBev Group. As a result of the business combination, there may be an impact on the activities of the Company in the future.

With effect from 7 June 2017 the Company's name changed from SABMiller Africa Investments Limited to AB InBev Africa Investments Limited.

No significant change in the business of the Company is expected in the foreseeable future.

Results and dividends

The Company recorded a profit for the financial year ended 31 December 2017 of US\$48,807,000 (period ended 31 December 2016: profit of US\$13,742,000). The detailed results are set out in the profit and loss account page 4.

No interim dividends were declared and paid in the year (period ended 31 December 2016: US\$nil). The directors do not propose a final dividend (period ended 31 December 2016: US\$nil).

Details of movements during the year in investments and debtors and creditors, including provisions, can be found in notes 9 to 11 to the financial statements.

Financial risk management

The Company is a subsidiary undertaking within the Group. Cash funds of the Group are managed at a group level. Interest is received and paid by the Company on certain loans with other Group companies.

Directors

The following directors held office during the year and up to the date of signing the financial statements:

K JF Douws (appointed 25 June 2018)
S Jiang (appointed 25 June 2018)
S J Turner (appointed 28 July 2017)
Y Bomans (resigned 25 June 2018)
V J Balchin (resigned 7 July 2017)
T M Boucher (resigned 29 September 2017)

Directors' insurance and indemnity

Anheuser-Busch InBev SA/NV maintains directors' and officers' liability insurance in respect of its directors and those directors of its subsidiary companies.

Key performance indicators ("KPIs")

Given the straightforward nature of the business, the Company's directors are of the opinion that analysis using KPIs is not necessary for an understanding of the development, performance or position of the business.

Statement of directors' responsibilities

The directors are responsible for preparing the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have prepared the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable United Kingdom Accounting Standards, including FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent auditors

As a result of the Company taking the exemption from the requirement to have an audit under the provisions of section 479A of the Companies Act 2006 ("the Act"), Pricewaterhouse Coopers LLP are not deemed to be reappointed as auditors, and thus, have resigned as auditors of the Company.

Post balance sheet events

Subsequent to the year end, the Company received total dividends of US\$43,215,742 from its associates. All dividends were declared after year end, but related to the accounting period ended 31 December 2017.

**AB InBev Africa Investments Limited (formerly SABMiller Africa
Investments Limited)**

**Directors' report (continued)
for the year ended 31 December 2017**

The Directors' report has been prepared in accordance with the provision applicable to companies entitled to the small companies exemption.

The directors' approval of the financial statements appears on page 5.

This report was approved by the board and signed on its behalf.

AB InBev Africa Investments Limited (formerly SABMiller Africa Investments Limited)

Notes to the financial statements for the year ended 31 December 2017

1. Presentation of financial statements

The Company's financial statements are prepared using the US Dollar as the presentational currency. The US Dollar is also the Company's functional currency, representing the currency of the primary economic environment in which the Company operates.

The Company is a private company limited by shares and is incorporated and domiciled in England and Wales. The address of its registered office is: AB InBev House, Church Street West, Woking, Surrey, GU21 6HT, United Kingdom.

2. Accounting policies

Basis of preparation

These financial statements have been prepared in accordance with *Financial Reporting Standard 101 Reduced Disclosure Framework* ("FRS 101"). The amendments to FRS 101 (2013/14, 2014/15 and 2015/16 cycle) issued in July 2014, July 2015 and July 2016 effective immediately have been applied.

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("EU Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The Company's ultimate parent undertaking, Anheuser-Busch InBev SA/NV includes the Company in its consolidated financial statements. The consolidated financial statements of Anheuser-Busch InBev SA/NV are prepared in accordance with International Financial Reporting Standards as adopted by the EU and are available to the public and may be obtained from the Corporate Secretary at Anheuser-Busch InBev SA/NV, Brouwerijplein 1, B-3000 Leuven, Belgium.

The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

The following exemptions from the requirements of EU Adopted IFRS have been applied in the preparation of these financial statements, in accordance with FRS 101:

- The following paragraphs of IAS 1, 'Presentation of financial statements':
 - 10(d), (statement of cash flows)
 - 16 (statement of compliance with all IFRS),
 - 38A (requirement for minimum of two primary statements, including cash flow statements),
 - 38B-D (additional comparative information),
 - 111 (cash flow statement information)
 - 134-136 (capital management disclosures)
- IAS 7, 'Statement of cash flows'
- Paragraph 30 and 31 of IAS 8 'Accounting policies, changes in accounting estimates and errors' (requirement for the disclosure of information when an entity has not applied a new IFRS that has been issued but is not yet effective)
- The requirements in IAS 24, 'Related party disclosures' to disclose related party transactions entered into between two or more members of a group.

AB InBev Africa Investments Limited (formerly SABMiller Africa Investments Limited)

Notes to the financial statements for the year ended 31 December 2017

2. Accounting policies (continued)

Basis of preparation (continued)

As the consolidated financial statements of Anheuser-Busch InBev SA/NV include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures.

- Certain disclosures required by IAS 36 'Impairment of assets' in respect of the impairment of goodwill and indefinite life intangible assets; and
- The disclosures required by IFRS 7 and IFRS 13 regarding financial instrument disclosures have not been provided apart from those which are relevant for the financial instruments which are held at fair value and are not held as part of a trading portfolio or as derivatives.

The financial statements are prepared on a going concern basis, under the historical cost convention, as modified by the fair valuation of financial instruments. The accounting policies, which have been applied consistently throughout the year, are set out below.

Exemption from preparation of consolidated financial statements

The financial statements contain information about AB InBev Africa Investments Limited as an individual company and do not contain consolidated financial information as the parent of a group. The Company has taken advantage of the exemption conferred by s400 of the Companies Act 2006 not to produce consolidated financial statements as it is included in the EEA accounts of a larger group.

Dividend income from group undertakings

Dividends receivable from associate undertakings are recognised in profit or loss when the right to the dividend income has been established. Interim dividends are recognised when paid and any final dividends receivable are recognised when declared at a general meeting.

Foreign exchange

Transactions in foreign currencies are translated to the Company's functional currency at the foreign exchange rate ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign exchange gains and losses are recognised within profit or loss.

Interest income on loans to fellow group undertakings

Interest income on loans in respect of lendings to other subsidiaries within the Group is recognised on an amortised cost basis using the effective interest rate method.

Interest expense on loans from fellow group undertakings

Interest expense on loans in respect of borrowings from other subsidiaries within the Group is recognised on an amortised cost basis using the effective interest rate method.

AB InBev Africa Investments Limited (formerly SABMiller Africa Investments Limited)

Notes to the financial statements for the year ended 31 December 2017

2. Accounting policies (continued)

Taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in other comprehensive income or directly in equity, respectively.

Current tax expense is based on the results for the year as adjusted for items that are not taxable or not deductible. The Company's liability for current taxation is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Investments in associates

Investments in associates are stated at cost, together with subsequent capital contributions, less provisions for impairment.

Impairment of investments

The carrying amounts of the Company's investments are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

Impairment reviews are performed by comparing the carrying value of the non-current asset with its recoverable amount, being the higher of the fair value less costs of disposal and value in use. The fair value less costs of disposal is considered to be the amount that could be obtained on disposal of the asset. Value in use is determined by discounting the future post-tax cash flows generated from continuing use of the asset using a post-tax discount rate, as this closely approximates applying pre-tax discount rates to pre-tax cash flows. Where a potential impairment is identified using post-tax cash flows and post-tax discount rates, the impairment review is re-performed on a pre-tax basis in order to determine the impairment loss to be recorded.

Financial instruments

Financial instruments comprise investments in equity securities and loans receivable and borrowings.

Financial assets and financial liabilities are initially recorded at fair value (plus any directly attributable transaction costs except in the case of those classified at fair value through profit or loss).

Financial assets are recognised when the Company has rights or other access to economic benefits. Such assets consist of cash, equity instruments, a contractual right to receive cash or another financial asset, or a contractual right to exchange financial instruments with another entity on potentially favourable terms. Financial assets are derecognised when the rights to receive cash flows from the asset have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

Financial liabilities are recognised when there is an obligation to transfer benefits and that obligation is a contractual liability to deliver cash or another financial asset or to exchange financial instruments with another entity on potentially unfavourable terms. Financial liabilities are derecognised when they are extinguished, that is discharged, cancelled or expired. If a legally enforceable right exists to set off recognised amounts of financial assets and liabilities, which are in determinable monetary amounts, and there is the intention to settle net, the relevant financial assets and liabilities are offset.

AB InBev Africa Investments Limited (formerly SABMiller Africa Investments Limited)

Notes to the financial statements for the year ended 31 December 2017

2. Accounting policies (continued)

Financial instruments (continued)

Financial instruments issued by the Company are treated as equity only to the extent that they meet the following two conditions:

- (a) they include no contractual obligations upon the Company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the Company; and
- (b) where the instrument will or may be settled in the Company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the Company's own equity instruments or is a derivative that will be settled by the Company exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the Company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

Investments in associates

Investments in associates are stated at cost, together with subsequent capital contributions, less provisions for impairment.

Loans receivable and borrowings

Loans receivable and borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, they are stated at amortised cost using the effective interest method, less any impairment losses.

Impairment of financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment an impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares are shown in equity as a deduction, net of tax, from the proceeds.

AB InBev Africa Investments Limited (formerly SABMiller Africa Investments Limited)

Notes to the financial statements for the year ended 31 December 2017

2. Accounting policies (continued)

Dividend payable

Dividend distributions to equity shareholders are recognised as a liability in the financial statements of the Company in the period in which the dividends are approved by the Company's shareholders. Interim dividends are recognised when paid.

Dividends declared after the balance sheet date are not recognised, as there is no present obligation at the balance sheet date.

3. Key estimates and judgements

In determining and applying accounting policies, judgement is often required where the choice of specific policy, assumption or accounting estimate to be followed could materially affect the reported results or net position of the Company, should it later be determined that a different choice be more appropriate.

Management considers the following to be the areas of significant judgement and estimation for the Company due to greater complexity and/or particularly subject to the exercise of judgement.

Impairment reviews

Impairment reviews in respect of investments in associates are performed if events indicate that this is necessary. Impairment reviews are based on future cash flows discounted using the weighted average cost of capital for the relevant country with terminal values calculated applying a long-term growth rate. The future cash flows which are based on business forecasts, the long-term growth rates and the discount rates used are dependent on management estimates and judgements. Future events could cause the assumptions used in these impairment reviews to change with a consequent impact on the results and net position of the Company.

4. Other operating expenses

	1 January 2017 to 31 December 2017 US\$('000s)	1 April 2016 to 31 December 2016 US\$('000s)

Total other operating expenses	-	14

AB InBev Africa Investments Limited (formerly SABMiller Africa Investments Limited)

Notes to the financial statements for the year ended 31 December 2017

5. Key management compensation and employees

Key management personnel are considered to be the directors of the Company. The Company had no employees in the year (period ended 31 December 2016: none). None of the key management personnel received any remuneration for their services as key management personnel of the Company and are not employed by the Company.

During the year, no (period ended 31 December 2016: six) key management personnel exercised options over US 10 cent shares of ABI SAB Group Holding Limited. This is accounted for by the employing company within the Group. No (period ended 31 December 2016: none) key management personnel exercised options in Anheuser-Busch InBev SA/NV.

Pension contributions, on behalf of the key management personnel, were made by their employing companies within the Group.
