NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 AUGUST 2013

1. Accounting policies

Basis of preparing the financial statements

Turnover

Turnover represents income receivable for goods and services provided in the period, exclusive of Value Added Tax and trade discounts.

Fixed assets

Depreciation has been computed to write off the cost of fixed assets over their expected useful lives at the following rates:-

Fixtures and fittings 20% per annum on reducing balance Computer equipment 50% per annum on reducing balance

Deferred taxation

Deferred tax assets and liabilities have arisen from timing differences between the recognition of gains and losses in the financial statements and their recognition in a tax computation. Full provision is made for all liabilities, and provision is made for assets to the extent that they are considered more likely than not to be recoverable in the foreseeable future. Provision is made using tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based upon rates enacted at the balance sheet date.
