NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2008

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention.

The company meets its day to day working capital requirements through a loan made available by the majority shareholder, Re-Org Solutions Limited.

The nature of the company's business is such that there can be considerable seasonal variation in cash inflows. On the basis of discussions with Re-Org Solutions Limited, the directors consider that the company will continue to be able to meet its financial obligations for the foreseeable future.

On this basis, the directors consider it appropriate to prepare the financial statements on the going concern basis.

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts. Any prepaid membership subscriptions are held as deferred income on the balance sheet and released into the period to which they relate.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Land and buildings Freehold	2% straight line
Plant and machinery	6 years straight line less 10% residual value
Fixtures, fittings & equipment	3 to 10 years straight line
Motor vehicles	4 years straight line

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.6 Stock

Stock is valued at the lower of cost and net realisable value.

1.7 Deferred taxation

Deferred taxation is provided on a full provisions basis on all timing differences which have arisen but not reversed at the balance sheet date. A deferred tax asset is not recognised to the extent that the transfer of future economic benefits is uncertain. Any assets and liabilities recognised have not been discounted.
