1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost convention

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

The company has taken exemption under s228A of the Companies Act 1985 regarding the preparation of group accounts. This is on the grounds that the company and all of its subsidiary undertakings are included in the consolidated accounts of NATCO Group Inc, the ultimate parent undertaking. The parent company accounts are drawn up in the manner equivalent to consolidated accounts in accordance with the provisions of the Seventh Directive (83/349/EEC)

Under FRS 1 (revised), the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements

As the company is a wholly owned subsidiary of NATCO Group Inc, the company has taken advantage of the exemption in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the group. The consolidated financial statements of NATCO Group Inc, within which this company is included, can be obtained from NATCO Group Inc, 11210 Equity Drive, Suite 100, Houston, Texas, 77041, USA

Taxation

The charge for taxation is based on the results for the period and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised without discounting, in respect of all timing differences which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19
