For the year ended 31 December 2013, the company was entitled to exemption from audit under Section 480 of the Companies Act 2006 relating to dormant companies.

The members have not required the company to obtain an audit of its accounts for the year in question in accordance with Section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of the accounts.

These financial statements were approved and authorised for issue by the Board of Directors on 12 September 2014.

Signed on behalf of the Board of Directors

Director

MATTHEW LME

Attheraces (UK) Limited

Notes forming part of the financial statements

For the year ended 31 December 2013

1. Accounting policies

The financial statements are prepared in accordance with applicable United Kingdom law and accounting standards. The particular accounting policies adopted are described below, and have been applied consistently in the current and preceding year.

Turnover

Turnover, which excludes value added tax, represents the gross inflow of economic benefit from Attheraces (UK) Limited's operating activities. The company's main sources of turnover are as follows:

The sale of broadcasting rights is recognised in the period in which the fixture occurred.

Turnover generated from betting commission agreements is recognised in the period in which the stakes were placed.

Other turnover is recognised when the relevant service is provided.

Foreign currency translation

Foreign currency transactions are converted to sterling at the rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates ruling on the balance sheet date. Exchange differences arising on retranslation of unsettled monetary assets and liabilities are taken to the profit and loss account.

Taxation

Current tax is provided at amounts expected to be paid using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

Deferred Taxation

Deferred taxation is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered.

Deferred tax balances are recognised in respect of brought forward tax losses. The extent to which deferred tax assets are recognised is limited to the extent that the group anticipates making sufficient taxable profits in the future to absorb the utilisation of the brought forward losses. Deferred tax balances are not discounted.

Pension costs

The company is a member of a group personal defined contribution pension scheme. Contributions payable into this scheme and into employee personal pension plans are charged to the profit and loss account on a monthly basis as they become due. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.
