2 Accounting policies

Basis of preparation

These financial statements have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' (FRS 101) and the Companies Act 2006 (the Act). FRS 101 sets out a reduced disclosure framework for a 'qualifying entity' as defined in the standard which addresses the financial reporting requirements and disclosure exemptions in the individual financial statements of qualifying entities that otherwise apply the recognition, measurement and disclosure requirements of IFRS.

The company is a qualifying entity for the purposes of FRS 101. Note 7 gives details of the company's parent and from where its consolidated financial statements prepared in accordance with IFRS may be obtained.

FRS 101 sets out amendments to IFRS that are necessary to achieve compliance with the Act and related Regulations.

The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company's accounting policies. Given the straight forward nature of the company no areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, have been identified by management.

The financial statements are prepared in accordance with the historical cost convention and have been prepared on a basis other than going concern. The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The functional currency of the company is pounds sterling.

The notes on pages 8 to 11 form an integral part of these financial statements.
