## NOTES TO THE ACCOUNTS

### 1 Accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below, have remained unchanged from the previous year and have been consistently applied within the same accounts

#### Basis of preparation of the financial statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standards for Smaller Entities (effective April 2008)

#### Tangible fixed assets

All fixed assets are initially recorded at cost

#### Depreciation

Depreciation is provided on all tangible assets, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset over its expected useful life, as follows -

Fixtures, equipment and computers	- 25% per annum - reducing balance
-----------------------------------	------------------------------------

#### Comparative figures

Comparatives shown in columnar form are disclosed first, followed by figures for the current financial year. This departs from conventional presentation but, in the opinion of the directors, provides a clearer and more logical format

#### Directors loan account

This is shown in the balance sheet as a source of funds, rather than a creditor, thereby more accurately revealing the capital provided to the company by the shareholder/director

#### Dividends

Where dividends are paid or voted, these are disclosed in the profit and loss account as a deduction from profit rather than in the balance sheet as a distribution. In this respect, the presentation does not comply with Generally Accepted Accounting Principles but, in the opinion of the board, is more appropriate to the true and fair representation of results in an owner-managed private limited company
