Directors' report

for the year ended 31 December 2008

The directors present their report and audited financial statements for the year ended 31 December 2008.

Principal activities and review of the business

The principal activity of the company during the year was that of an intermediate holding company.

The profit and loss account on page 6 shows a pre-tax profit of £nil (2007: £191.1 million) for the year. The balance sheet on page 7 shows net assets of £51.6 million at 31 December 2008 (2007: £51.6 million). During the year, a dividend of £nil per share was paid (2007: £9.17).

The Directors regard CP Cayman Holdings GP Limited to be the ultimate holding company. The ultimate controlling parties are investment funds advised by The Blackstone Group.

Future outlook

The Directors consider that the company will be dormant for the foreseeable future.

Principal risks and uncertainties

From the perspective of the company, the principal risks and uncertainties are integrated with the principal risks of the group and are not managed separately. Accordingly, the principal risks and uncertainties of the CP Comet Holdings Limited group, which include those of the company, are disclosed in CP Comet Holdings Limited's annual report, which does not form part of this report.

Key performance indicators ("KPIs")

The directors of CP Comet Holdings Limited manage the group's operations on a per village basis. For this reason, the company's directors believe that analysis using key performance indicators for the company is not necessary or appropriate for an understanding of the development, performance or position of the business of Carp (CP) Limited.

Financial risk management

The financing of the Company is managed together with that of all other Group Companies. As a result there is no separate analysis of the risks associated with the Company and all such risks are applicable to the CP Comet Holdings Limited group.

The Group finances its operations through a mixture of shareholders' funds, bank and other borrowings and loan notes as required. The Group has historically sought to reduce the cost of capital by refinancing and restructuring the Group funding using the underlying asset value.

The overall policy in respect of interest rates is to reduce the exposure to floating rates. The Group currently has interest caps and swaps in place, held by Comet Refico Limited.

Interest rate risk

The Group has in place floating rate debt as its primary funding source. In order to minimise exposure to interest rate fluctuations, the Group utilises interest rate caps and swaps to achieve a fixed interest rate.

Liquidity risk

The Group maintains sufficient cash reserves to ensure that it can meet its medium term working capital and funding obligations.

Currency risk

The Group is exposed to limited currency risk through foreign currency transactions. The Group does not operate a hedging facility to manage these currency risks as they are considered to be insignificant.

Directors' report (continued)

for the year ended 31 December 2008

Credit risk

The Group borrows from well-established institutions with high credit ratings.

Directors

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Notes to the financial statements

for the year ended 31 December 2008

1. Accounting policies

Basis of preparation

The financial statements have been prepared on the going concern basis, under the historic cost convention and in accordance with applicable UK Accounting Standards and the Companies Act 1985.

Basis of consolidation

The company is not required to prepare group accounts under s.228 of the Companies Act 1985. The company is included in the consolidated accounts of CP Comet Holdings Limited. The accounts show information relating to the company as an individual undertaking and not as a group.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is a wholly owned subsidiary of an ultimate parent company which itself publishes a consolidated cash flow statement.

Related parties transactions

The company has taken advantage of the exemption in Financial Reporting Standard 8 "Related Party Disclosures" from disclosing related party transactions between companies which are 90% owned by the ultimate UK parent company during the year, CP Comet Holdings Limited.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

- provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;
- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Fixed asset investments

Investments held as fixed assets are stated at cost and reviewed for impairment if events or changes in circumstances indicate that the carrying value may not be recoverable.

Dividends received from investments are brought to account in the profit and loss account when received.

2. Operating profit

The auditors' remuneration for the year ended 31 December 2008 is borne by CP Comet Holdings Limited, the ultimate UK parent company. Of this fee £500 (2007: £500) relates to the audit of Carp (CP) Limited.
