**1 ACCOUNTING POLICIES**

**Accounting convention**

**Turnover**

Turnover represents the net amounts invoiced to customers during the period less work in progress and net of value added tax

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter

Optical Equipment	- 14-25% on cost
Fixtures and fittings	- 14-25% on cost

**Stocks**

Stock is valued at the lower of cost and net realisable value. Cost is determined on an average cost basis. Net realisable value is based on estimated selling price allowing for all further costs of completion and disposal.

**Deferred tax**

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in tax computations in periods different from those in which they are included in the financial statements. Deferred tax assets and liabilities are not discounted.

**Hire purchase and leasing commitments**

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

**Pension Costs**

The company operates a defined contribution scheme for one of the directors and its employees under which the pension costs charged against profits represent the amount of contributions payable to the scheme for the period. Differences between contributions payable in the year and contributions actually paid are shown as either accrual or prepayments on the balance sheet as appropriate.

**Going Concern**

The financial statements are prepared on a going concern basis on the grounds that continued support will be received from the directors for the foreseeable future.
