DIRECTORS' REPORT

The Directors present their annual report and the financial statements of the company for the period from 3 February 2008 to 31 January 2009.

Principal Activity

The Company's principal activity is as a designer, wholesaler and retailer of ladies fashion clothing and accessories.

Directors and their Interests

The current Directors of the Company are:

Ms J L Fayed

Mr R J Fallowfield Appointed 14 February 2008
Mr J Byrne Resigned 14 February 2008

By virtue of being the ultimate controlling party of Jasmine Di Milo Limited via Gemini Holdings Limited Inc, Ms J. L Fayed held a beneficial interest in 100% of the shares of Jasmine Di Milo Limited at 3 February 2008 and 31 January 2009. No Director has had a material interest directly or indirectly at any time during the period in any contract significant to the business of the Company.

Results and Dividends

The loss after taxation for the period from 3 February 2008 to 31 January 2009 amounted to £1,951,815 (2008: loss of £2,092,003).

The Directors do not recommend the payment of a dividend and an amount of £1,951,815 has been transferred out of reserves.

Review of Business

The year saw two more seasons of strong growth in wholesale business, as the product team built on the brand's reputation for strong design, good fit, high quality and excellent value for money. The sales team expanded the customer base and deepened market penetration in all territories.

The retail outlet saw sales fall slightly after a strong launch, mainly due to lower visibility of the showroom in the host store. This has been addressed since the year end with clear and positive results.

As the business continued to expand and face the challenges of growth, a decision was taken during the year that the company needed to recruit an experienced industry manager as Chief Executive. The search was successfully concluded in August 2009, and the company thereby took a big step towards achieving its longer term goals of expansion and product range extension.

NOTES TO THE ACCOUNTS

1 Accounting Policies

Basis of preparation

The financial statements have been prepared under the historical cost convention and comply with the disclosure requirements of the Companies Act 1985 and applicable accounting standards.

Going Concern

The Company has a deficit of shareholder's funds at 31 January 2009 and since that date the Company has continued to make losses. The financial statements have been prepared on a going concern basis, which assumes that the company will continue in operational existence for the foreseeable future. In concluding that it is appropriate to adopt the going concern basis in preparing these financial statements the Directors have had regard to the indications received from the ultimate parent company, Gemini Holdings Limited Inc, and the verbal indications received from Mr M Al Fayed, that continued funding will be made available to finance the Company's working capital requirements for the foreseeable future. Although there is no legal obligation for either Gemini Holdings Limited Inc. or Mr Al Fayed to provide this continued support, the Directors are confident that such funding will be forthcoming.

Depreciation of Tangible Fixed Assets

Depreciation is provided by the Company in order to write down to estimated residual value, if any, the cost of tangible fixed assets over their estimated useful lives by equal annual instalments, on the following basis:

Computer equipment	33%
Plant & Machinery	20%
Leasehold Improvements	14%

Deferred Taxation

Deferred taxation is provided on material timing differences between the incidence of income and expenditure for taxation and accounts purposes using a full provision basis in accordance with the provisions set out in Financial Reporting Standard No 19 "Deferred Tax". Deferred tax assets are only recognised when they arise from timing differences where their recoverability in the short-term is regarded as more likely than not.

Foreign Currency

Transactions denominated in foreign currency are translated at exchange rates ruling at the transaction date. Realised gains and losses are dealt with in the profit and loss account.

Stock

Stocks are stated at the lower of cost and net realisable value.

Leasing

Assets acquired under finance leases and hire purchase contracts are capitalised and depreciated over their useful lives. The interest element of the rental obligations is charged to profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the lease term.

Pension Costs

The cost of defined contribution pensions represent the contributions payable by the company during the year.

2 TURNOVER

Turnover represents the total amount receivable for goods sold excluding VAT and is derived from worldwide markets.

5 TAXATION

No taxation charge has been provided in the accounts, based on the results of the period. This can be reconciled to the theoretical tax credit based on the standard rate of tax as follows:

	03/02/08 to 31/01/09 £'000	04/2/07 to 02/02/08 £'000
Loss on ordinary activities before tax	(1,952)	(2,092)

Effects of: Depreciation in excess of capital allowances	(3)	13
Expenses not deductible for tax	1	-
purposes Unutilised tax losses carried forward	412	405
Current tax charge for the period	-	

Factors that may affect future tax charges

The company has losses available to carry forward for offset against future profits of the same trade. At 31 January 2009 this represents a potential deferred tax asset at 21% of £1,809,041 based on tax losses carried forward of £8,614,482. This asset has not been recognised in the financial statements because, in the opinion of the directors, there is insufficient evidence of future taxable profits arising against which to utilise these losses.
