2 Accounting policies

Basis of preparation of accounts

The accounts have been prepared under the historical cost convention and in accordance with Section 1A of Financial Reporting Standard 102 ('FRS 102') and the Companies Act 2006.

Turnover

Turnover comprises the fair value of goods and services provided, excluding value added tax.

Tangible fixed assets

Tangible fixed assets are stated at historical cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is charged so as to spread the cost of all fixed assets over their expected useful lives, using the reducing balance method and a depreciation rate of 25% per annum.

Fixed assets' residual values, useful lives and depreciation methods are reviewed and adjusted if appropriate or if there has been a significant change in value since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying value.

Stocks

Stocks are estimated by the director at the lower of cost and net realisable value.

Debtors

Trade and other debtors are initially recognised at transaction price, less any subsequent impairment.

Creditors

Trade and other creditors and loans from related parties like directors are initially recognised at transaction price.

Taxation

The tax expense for the year comprises corporation tax on the company's taxable profits using tax rates and laws applicable to the accounting period. Deferred tax balances will be recognised in the event there are timing differences between accounting and tax treatments in the future, although no material differences have arisen to date.

3 Employees
