Statement of directors' responsibilities in respect of the preparation of financial statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. The financial statements are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that year.

In preparing those financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether the financial statements comply with IFRSs as adopted by the European Union, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business, in which case there should be supporting assumptions or qualifications as necessary.

The directors confirm that they have complied with the above requirements in preparing the financial statements.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Notes to the financial statements

1 Accounting policies

Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and International Financial Reporting Interpretations Committee (IFRIC) interpretations as adopted by the EU and with those parts of the Companies Act 1985 applicable to companies reporting under IFRS. The financial statements have been prepared on a going concern basis under the historical cost convention.

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may ultimately differ from those estimates.

The Company has reviewed both other standards, amendments and interpretations to published standards that became mandatory for accounting periods on or after 1 January 2007 and the standards, amendments and interpretations of existing standards that have been published and that are mandatory for the Company's accounting periods beginning on or after 1 January 2008 or later. None of these are relevant to the Company's operations.

The directors do not consider that there are any areas of the Company's accounting policies involving a higher degree of judgement or complexity nor are there any areas where assumptions and estimates are significant to the financial statements.

2 Income statement and Statement of changes in shareholders' equity

The Company has not traded during the years ended 31 December 2007 and 2006, consequently no Income Statement has been presented. In addition, there were no changes in shareholders' equity in either year.

3 Cash flow statement

The entity had no cash or cash equivalents during the years ended 31 December 2007 and 2006.
