NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30TH APRIL 2006

1. ACCOUNTING POLICIES

Exemptions

The Directors have relied on the exemption available to small companies under Financial Reporting Standard No.1, and have therefore not included a cash flow statement as part of these Accounts.

Basis of Accounting - The Financial Statements are prepared under the historical cost convention.

The principal accounting policies which the Directors have adopted within that convention are set out below.

Turnover - The Turnover represents the total amount of sales and work done, excluding value added tax, and is attributable to the principal trading activities of the Company.

Depreciation - The provisions for Depreciation are calculated to write down the cost less estimated residual value of the Fixed Assets over their estimated useful lives at the following rates:-

Furniture, Fixtures and Fittings	10% on straight-line basis
Computer Equipment	30% " " " "

Taxation - The charge for Corporation Tax is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Provision for deferred taxation is made under the liability method to the extent that the liability may become payable in the foreseeable future.

Leased Assets - Where asset acquisitions are financed by hire purchase and leasing agreements (finance leases) the assets are included in the Balance Sheet at cost less depreciation in accordance with the Company's normal accounting policies. The present value of future rental payments is shown as a liability, and the interest element of rental obligations is charged to the Profit and Loss Account over the period of the lease in constant proportion to the balance of capital payments outstanding. Rentals payable under operating leases are charged to the Profit and Loss Account as incurred.
