**Cu Technical Services Limited**  
**Notes to the Abbreviated Financial Statements**  
**For The Year Ended 31 July 2010**

**1. Accounting Policies**

**1.1. Accounting Convention**

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

**1.2. Turnover**

Turnover represents the total invoice value, excluding value added tax, of sales made during the year

**1.3. Tangible Fixed Assets and Depreciation**

Tangible fixed assets are stated at cost or valuation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows

Office	-	15% Straight Line
Plant and Machinery	-	15% Reducing Balance
Office Equipment	-	15% Reducing Balance
Computer Equipment	-	20% Straight Line

**1.4. Deferred Taxation**

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and the law enacted or substantively enacted at the balance sheet date.
