## **Alberga Properties Limited**

### **Notes to the abbreviated financial statements for the year ended 31 December 2011**

#### **1. Accounting policies**

##### **1.1. Accounting convention**

The accounts are prepared under the historical cost convention and comply with financial reporting standards of the Accounting Standards Board

##### **1.2. Turnover**

Turnover represents the total invoice value, excluding value added tax, of sales made during the year

##### **1.3. Tangible fixed assets and depreciation**

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows

Land and buildings                      -      Not depreciated (See note 1.4)

##### **1.4. Investment property (freehold)**

Fixed asset investments are stated at cost less provision for diminution in value

Investment properties are revalued annually at their open market in accordance with UK GAAP. The surplus or deficit on revaluation is transferred to a revaluation reserve except where the deficit reduces the property below its historical cost, in which case it is taken to the profit and loss account.

No depreciation is provided on investment properties which is a departure from the requirements of the Companies Act 2006. In the opinion of the directors these properties are held primarily for their investment potential and so their current value is of more significance than any measure of consumption and to depreciate them would not give true and fair view. The provisions of UK GAAP in respect of investment properties have therefore been adopted in order to give a true and fair view. If this departure from the Act had not been made, the (profit & loss) for the year would have been reduced by depreciation.

However, the amount of depreciation can not reasonably be quantified and the amount which might otherwise have been shown can not be separately identified or quantified.

##### **1.5. Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax.
