LEADENHALL INSURANCE BROKERS LIMITED

Notes to the Financial Statements

for the Period Ended 31 May 2017

1. Accounting policies

These financial statements have been prepared in accordance with the provisions of Section 1A (Small Entities) of Financial Reporting Standard 102

Turnover policy

Turnover represents brokerage and profit commission arising from the placement of insurance contracts by the Company. Brokerage income is recognised at the date of inception of the underlying insurance contract subject to the policy having been substantially completed and subject to a deferral of brokerage in respect of post placement services that constitute obligations of the Company under those contracts. Adjustments relating to additional premiums and/or return premiums are accounted for as they arise. Income from monthly declarations is recognised when the declarations are received Profit commission arising from the placement of insurance contracts or the exercise of an underwriting agency by the Company is recognised when the right to such profit commission is established through a contract, but only to the extent that a reliable estimate of the amount due can be made. Such estimates are made on a prudent basis that reflects the level of uncertainty involved.

Other accounting policies

The company acts as an agent in broking the insurable risks of its clients and, generally, is not liable as principal for premiums due to underwriters nor for claims payable to clients. Notwithstanding the company's legal relationship with clients and underwriters and since, in practice, premium and claims monies are usually accounted for by insurance intermediaries, it has shown cash, debtors and creditors relating to insurance business as assets and liabilities of the company itself. The company has followed generally accepted accounting practice and offsets debtors and creditors from insurance broking transactions only where it is legally enforceable. Cash at bank relating to insurance activities is held in a statutory trust, and is not readily available to meet the company's day to day working capital requirements.
